

# Bexhill Environmental Group And Rother Environmental Group

## **Housing Developments are coming across Rother District**

We can't stop them

But

**By working together** – residents, officers and developers - we may be able to ensure that homes are affordable, accessible, attractive and sustainable.

People need homes which are light, warm, energy and water efficient.

Don't miss this unique opportunity. All are welcome to come and seek a positive way forward. Leading the discussion will be Ken Davis, a local architect and Chris Lewcock a retired Lecturer in Urban & Regional Planning.

Date: Wednesday, 27 April  
Time: 7.00pm for a drink and a biscuit  
7.30pm prompt start 9.00pm close  
Place: St Mark's Church Hall, Green Lane, Bexhill, TN39 4BZ

We will be inviting local Cllrs, RDC planning officers and developers – an opportunity you can't afford to miss. But do please remember this is a dialogue about working together, positively and collaboratively: NOT an anti development meeting

This discussion, particularly pertinent in Bexhill, is facilitated through the auspices of BEG and REG and supported by Rother Voluntary Action. Refreshments kindly provided by Bexhill Co-operative Store.
